

INTELLISEEK

ACADEMIC AI WORKSPACE

Fast, source-grounded retrieval for academic documents, knowledge bases, and study workflows.

CORE QUALITIES

Built for clarity, speed, and grounded answers.

01

Semantic Search

Vector-powered retrieval that surfaces relevant material from academic content in seconds.

02

Hybrid Precision

Combines lexical and semantic signals for sharper matches and fewer irrelevant results.

03

Rapid Ingestion

Parses, chunks, embeds, and indexes documents for a streamlined research workflow.

04

Source-Grounded AI

Answers stay anchored to retrieved context so insights remain traceable and reviewable.

POWERED BY

Next-generation web, AI, and retrieval technologies.

Next.js

React

TypeScript

Tailwind CSS

Supabase

OpenAI

RAG

Vector Search

HNSW

Trie Autocomplete
